Description

We are seeking a highly skilled **Senior WordPress Developer** to join our team. You will be responsible for leading the development, customization, and maintenance of WordPress-based websites, themes, and plugins. You should have deep knowledge of WordPress architecture, coding standards, and the ability to deliver high-quality solutions in a fast-paced environment.

Key Responsibilities:

- Lead end-to-end WordPress website development projects.
- Build custom themes and plugins from scratch using PHP, HTML, CSS, JavaScript, and WordPress APIs.
- Customize existing themes and plugins to meet client or business needs.
- Ensure responsive, cross-browser compatible, and high-performance websites.
- Collaborate with designers, developers, and content teams to define and implement features.
- Maintain website security, updates, and backups.
- Troubleshoot, debug, and optimize performance issues.
- Integrate third-party APIs and services (e.g., REST, GraphQL).
- Mentor junior developers and participate in code reviews.

Requirements:

- 5+ years of WordPress development experience.
- Proficiency in PHP, MySQL, JavaScript, jQuery, HTML5, and CSS3.
- Strong understanding of WordPress core, themes, plugins, and best practices.
- Experience with Gutenberg block development and ACF (Advanced Custom Fields).
- Familiarity with Git, CI/CD workflows, and modern development tools.
- Experience with WooCommerce, multilingual sites, and multisite setups is a plus.

- Excellent problem-solving skills and attention to detail.
- Strong communication and project management skills.
